NEPAL'S FIRST & LARGEST

Your Data, Our Infrastructure. Highly Secure and Always on

TIA - 942 Rated Tier III Data Center

Engineered to global standards for

Unmatched availability

Resilience

Security

powering Nepal's critical digital infrastructure.

ABOUT DATA WORLD

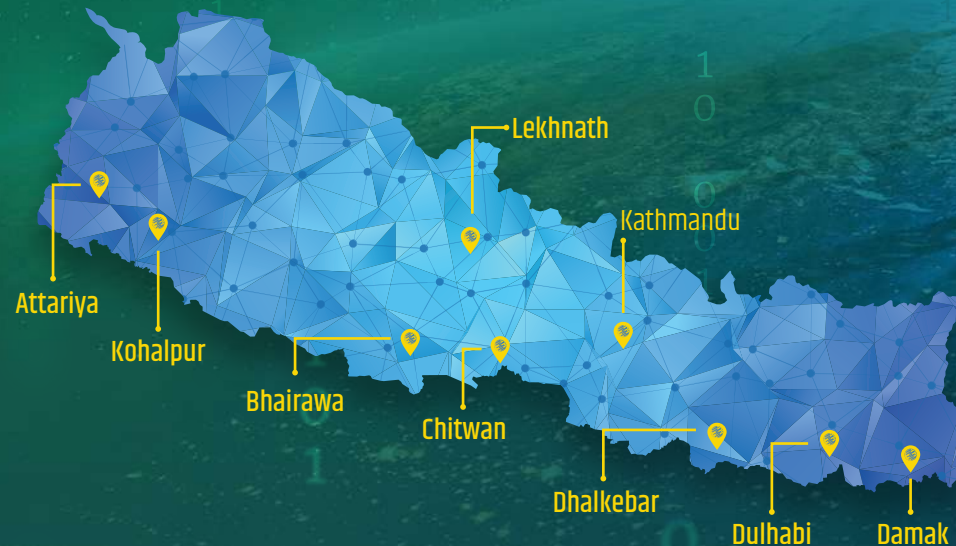

Data World is Nepal's next-generation data center & cloud service provider, delivering enterprise-grade colocation and cloud infrastructure nationwide.

Infrastructure that meets international expectations delivered locally in Nepal.

- Purpose-built and engineered for Seismic Zone V
- ANSI/TIA-942 Rated-III and EDGE Compliance
- global standards,
- Designed for concurrent maintainability & zero downtime
- AI/ML-ready infrastructure
- 24x7 monitored operations
- Military-grade physical security
- Nationwide Presence

Ensures secure, scalable, and always-on operations for the organization.

THE LARGEST NETWORK OF DATA CENTERS IN NEPAL

9+

Cities

9+

MW Power

BUILT FOR RESILIENCE. DESIGNED FOR SCALE.

(MTD : NEAR ZERO)

RESILIENT POWER ARCHITECTURE (RTO: < 20 MILLISECONDS)

- Dual Underground NEA feeders
- N+1 redundancy (generators, UPS, transformers, batteries)
- 50+ KL on-site fuel storage

PRECISION COOLING & ENVIRONMENTAL CONTROL (RTO : < 5 MINUTES)

- N+1 redundant Cooling Architecture, Hot/cold aisle design
- Precise temperature & humidity control (ASHRAE compliant)
- Energy-efficient design for low PUE Intelligent

PHYSICAL SECURITY

- Multi-layer access control with role-based authorization
- 24x7 CCTV surveillance with Military-grade Biometric scanners, mantraps
- Defined security zones with comprehensive audit trails

NETWORK & CONNECTIVITY

- Carrier-neutral facility
- 7 fully Diverse Fiber Entry Paths
- Low-latency, high-availability network design

OPERATIONS

- 24x7 Network Operations Center (NOC)
- Strict Standard operating procedures (SOPs)
- Remote Hands & managed services
